

Step out of the dark ages and into a 'Modern Man Cave™'

Have a modern home and need a 'modern man cave™' shed for storage, but think the range of sheds and garages available clash with the look of your home? Fair Dinkum Sheds, one Australia's leading distributors of residential garages, carports, barns, farm sheds and industrial and commercial buildings, have the answer – the 'modern man cave'.

The 'modern man cave' is a new range of sheds and garages purposely designed with the modern home in mind. The newly designed single pitch roof will add value and functional space to your home, while remaining sympathetic to the design of your home.

"At Fair Dinkum Sheds we understand the need to improve the aesthetic appeal of the typical backyard shed and garage", says Travis Griffin, Business Manager, Fair Dinkum Sheds.

"The new skillion roof provides an updated design that complements new home designs. Modern combinations of colours and profiles can add even more character to a shed in order to complement rendered and modern looking homes".

Each 'Modern Man Cave™' is customised to suit individual purpose whether it be adding extra height to fit your fishing poles or made wider for horse float storage – it's up to you.

Fair Dinkum™ Sheds are available as a kit or fully built and there are a wide range of options available such as size, type of doors, ventilation, lining, windows and colours. Designs can easily be customised to suit your individual needs.

Fair Dinkum Sheds are also one of the first businesses to receive The Australian Steel Institute's (ASI) new industry benchmark for steel sheds – ShedSafe™.

ShedSafe™ accreditation, which was officially launched in November 2010, came about after the ASI discovered evidence of under-engineered sheds in areas across Australia, putting people and property at risk.

ShedSafe™ accreditation means that companies such as Fair Dinkum Sheds ensure that all guidelines set by the BCA are adhered to in the design of your shed or garage.

Whether you're looking to replace an outdated 'man cave™' shed or just want somewhere to store all the fishing gear – the new skillion angled roof from Fair Dinkum Sheds will accommodate this while keeping with the look and feel of your modern home.

Fair Dinkum Sheds have over 130 distributors nationally.
